

Blasting overall

Just like any other protective clothing blasting overalls must oblige to the European directive 89/686/EEG for personal protective equipment.

The Gritco heavy duty blasting overalls are delivered with the proper CE marking and are manufactured and tested EN ISO 14877 (*protective clothing for abrasive blasting operations using granular abrasives*).

The overalls are executed with leather reinforced fronts of the sleeves & legs and have leather elbow pieces and a leather collar. This way the blaster is protected against the ricochet of abrasive*.

The front closes by a first flap with press studs and a second flap with Velcro. The sleeves and legs are closed with Velcro straps. All of this ensures that no abrasive and dust will enter the overall during blasting.

* in combination with blasting helmet with cape

Available sizes

| Size | Chest | Height |
|-----------|----------------------|------------------------|
| S (50) | 84-92 cm (33"-36") | 164-170 cm (5'5"-5'7") |
